

# UK Semi-Annual Kick-out Plan (SG035)

**WALKERCRIPS**  
Structured Investments

The Plan provides the potential to receive an accumulated return of 8.25% p.a. depending on the performance of the FTSE 100 Index.

If, on an Observation Date, the FTSE 100 Index closes **at or above the Initial Index Level**, the Plan will end and the Initial Investment will be repaid, plus an accumulated return of 4.125% for each six month period that has elapsed (equivalent to 8.25% per annum) since the Investment Start Date.

If, however, the FTSE 100 Index closes **below the Initial Index Level** on an Observation Date, the Plan will continue to the next Observation Date.

**Where the Plan has not matured early and runs to the full seven year term, investors will lose a significant proportion of their Initial Investment if the Final Index Level is below 60% of its Initial Index Level on the Investment End Date.**

## Historical FTSE 100 Index Performance

### Index Levels

This graph shows the FTSE 100 Index performance over the past 10 years. The Initial Index Level for the Plan will be set as the Closing Level of the Index on the Investment Start Date.

The Index can fall as well as rise and past performance is not a reliable indicator of future returns. The Plan is subject to a maximum return which could be lower than received if an investor had invested directly in the shares of the companies which comprise the FTSE 100 Index. Additionally, investors will not receive dividend income from those companies.

#### Notes to historical performance

Performance based on a rolling basis data range since 1984.

\*Percentage outcome reflects the number of occurrences where the performance of the Index would have triggered the specified return in the given year.

The results of historical back testing should be treated with caution. Back testing is not a reliable indicator of future performance and is simulated on the assumption that the current product existed and had been offered throughout the back testing period.

## Target Market

This Plan is designed for UK retail investors who:

- understand the specific features and risks highlighted in the Plan documentation and are able to make an informed investment decision based on the information provided within the authorised documentation, including the brochure and the KID
- understand how the Plan works and that any returns will be based on predetermined calculations
- understand that they will lose, and are able to withstand the loss of, more than 40% of their Initial Investment if the Final Index Level is below 60% of the Initial Index Level on the Investment End Date
- are looking for potential growth from their Initial Investment, and do not require an income during the Investment Term
- understand that any potential return is determined by the closing level of the Index at specified dates throughout the Investment Term
- understand that they will receive no return at all where the Final Index Level is below the Initial Index Level on the Investment End Date.
- are prepared to accept the Counterparty risk of Societe Generale
- will not need access to their Initial Investment during the Investment Term, having other readily accessible funds available to meet immediate financial needs and for emergencies
- accept the possibility that the Plan may mature early if certain conditions are met
- understand that they may receive back less compared to a direct investment in the underlying Index
- have a positive view of the Index over the Investment Term
- have a minimum of £10,000 (JISA £5,000) to invest.
