

# UK Fixed Growth Deposit Plan (SAN031)

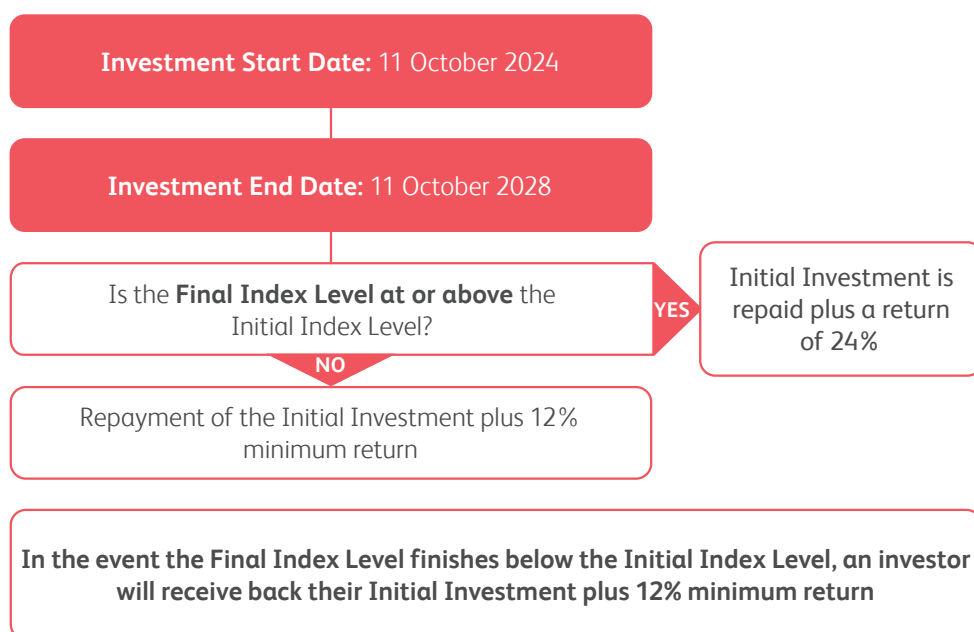

**WALKERCRIPS**  
Structured Investments

The Plan provides the potential to receive 12% minimum return or 24% at the end of the Investment Term, depending on the performance of the FTSE 100 Index.

If, on the Investment End Date, the Final Index Level of the FTSE 100 Index closes **at or above** the Initial Index Level, the Initial Investment will be repaid, plus a return of 24% at maturity.

If, however, the FTSE 100 Index closes **below** the Initial Index Level on the Investment End Date, an investor should expect to receive back their Initial Investment plus 12% minimum return, subject to Deposit Taker Risk.

**On the Investment End Date, an investor will receive 12% minimum return on their Initial Investment if the Final Index Level finishes below the Initial Index Level.**

An investor could lose some or all of their Initial Investment if Santander UK plc were to fail or become insolvent during the Investment Term, and the amount exceeds the Financial Services Compensation Scheme (FSCS) limit.
