

# UK Fixed Income Plan (CT117)

**WALKERCRIPS**  
Structured Investments

The UK Fixed Income Plan has been structured to provide scheduled quarterly income payments of 1.25% over a five year term (equivalent to 5.00% per annum). The Plan does not have the ability to mature early at any time.

On each income payment date, a fixed payment of 1.25% will be made (equivalent to 5.00% per annum). These income payments are unconditional and do not depend on the performance of any underlying Index.

**When the Plan has reached the full five year term, investors will lose a significant proportion of their Initial Investment if the Final Index Level is below 65% of its Initial Index Level on the Investment End Date.**

The Plan will provide a total of 20 income payments.
