

# Annual Kick-out Plan (UK)

## Issue 5

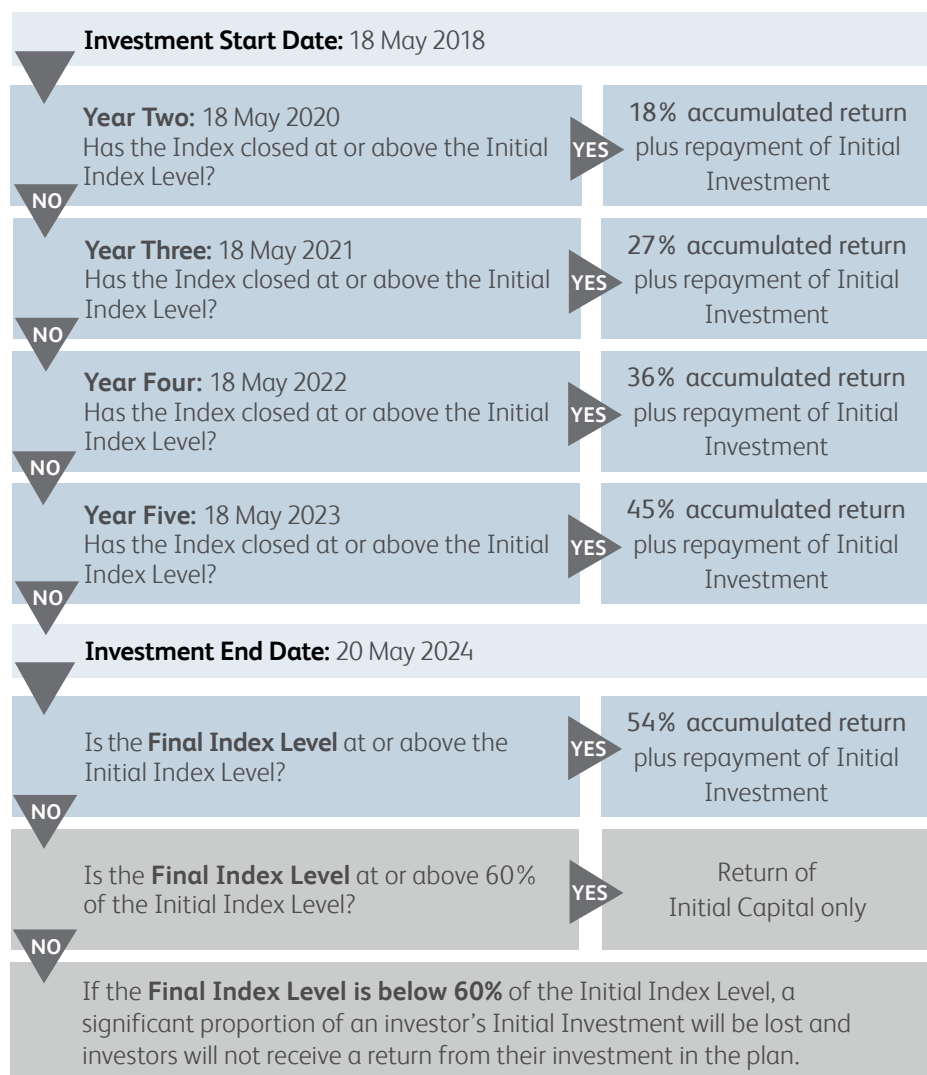

**WALKERCRIPS**  
STRUCTURED INVESTMENTS

The Plan provides the potential to receive an accumulated return of 9% p.a. depending on the performance of the FTSE 100 Index.

If, on an Anniversary Date, the FTSE 100 Index closes **at or above the Initial Index Level** the Plan will end and the Initial Investment will be repaid, plus an accumulated return of 9% for each year that has elapsed since the Investment Start Date.

If, however, the FTSE 100 Index closes **below the Initial Index Level** on an Anniversary Date, the Plan will continue to the next Anniversary Date.

**Where the Plan has not matured early and runs to the full six year term, investors will lose a significant proportion of their Initial Investment if the Final Index Level is below 60% of its Initial Index Level on the Investment End Date.**

## Historical FTSE 100 Index Performance

### Index Levels

This graph shows the FTSE 100 Index performance over the past 10 years. The Initial Index Level for the Plan will be set as the Closing Level of the FTSE 100 Index on the 18 May 2018.

The Index can fall as well as rise and past performance is not a reliable indicator of future performance. The Plan is subject to a maximum return which could be lower than received if an investor had invested directly in the shares of the companies which comprise the FTSE 100 Index. Additionally, investors will not receive dividend income from those companies.

## Back testing

<b>Year 6. Reduction in repayment of Initial Investment</b> The Index closed <b>below 60%</b> of its Initial Index Level.	0%

### Notes to historical performance

Performance based on a rolling basis data range since 1984.

\*Percentage outcome reflects the number of occurrences where the performance of the Index would have triggered the specified return in the given year.

The results of historical back testing should be treated with caution. Back testing is not a reliable indicator of future performance and is simulated on the assumption that the same economic conditions existed and the same product terms had been offered throughout the back testing period.

## Target Market

This Plan is designed for UK retail investors who:

- understand the specific features and risks highlighted in the Plan documentation and are able to make an informed investment decision based on the information provided within the authorised documentation, including the brochure and the KID
- understand how the Plan works and that returns are based on pre-determined market outcomes
- understand that they will lose, and are able to withstand the loss of, more than 40% of their Initial Investment if the Final Index Level is below 60% of the Initial Index Level on the Investment End Date
- are looking for potential growth from their Initial Investment at maturity, and do not require an income from their Initial Investment throughout the Investment Term
- understand that any potential return is determined by the closing level of the FTSE 100 Index at specified dates throughout the Investment Term
- understand that they may receive no return at all where the level of the FTSE 100 Index is below that required to provide a return on a specified date
- are prepared to accept the Counterparty risk of HSBC Bank plc
- understand the Investment Term and will not need access to their Initial Investment for six years, having other readily accessible funds available to meet immediate financial needs and for emergencies
- accept the possibility that the Plan may mature early if certain conditions are met
- understand that if the Index performs better than the maximum potential return offered by the Plan over the Investment Term, they may receive less than they would have received had they invested directly in the FTSE 100 Index
- have a positive view of the FTSE 100 Index performance over the next six years
