Defensive Dual Index Plan (UK & US) Issue 40

WALKERCRIPS STRUCTURED INVESTMENTS

The Plan provides the potential to receive capital growth of 7.00% p.a. depending on the performance of the FTSE 100 Index and the S&P 500 Index.

The full Investment Term is six years. However, the Plan has the potential to mature early (kick-out) and pay back Initial Capital plus a defined capital growth amount on any anniversary date from the second year onwards. If, on any anniversary from year two, both the FTSE 100 Index and the S&P 500 Index are at or above their Initial Index Levels, the Plan will close and return Initial Capital plus 7.00% capital growth for each year that has elapsed.

Where the Plan has not closed early and runs to the full six year term, the required kick-out levels reduce to 70% of their Initial Index Levels on the Investment End Date.

Historical FTSE 100 Index Performance

Historical S&P 500 Index Performance

The graphs show the performance of the FTSE 100 Index and the S&P 500 Index over the past 10 years. The Initial Index Levels for the Plan will be set as the Closing Levels of each Index on 3 March 2017.

The Indices can fall as well as rise and past performance is not a reliable indicator of future performance. The Plan is subject to a maximum potential capital growth and therefore the return you receive could be lower than if you invested directly in the shares of the companies which comprise the FTSE 100 Index and the S&P 500 Index. Additionally, you will not receive dividend income from those companies.

Notes to historical performance

Performance based on a rolling basis data range since 1984.

*Percentage outcome reflects the number of occurrences where the performance of the Indices would have triggered the specified return in the given year.

The results of historical back testing should be treated with caution. Back testing is not a reliable indicator of future performance and is simulated on the assumption that the same economic conditions existed and the same product terms had been offered throughout the back testing period.
