# Defensive Dual Index Plan (UK & US) Issue 43

# The Plan provides the potential to receive capital growth of 6.5% p.a. depending on the performance of the FTSE 100 Index and the S&P 500 Index.

The full Investment Term is six years. However, the Plan has the potential to mature early (kick-out) and pay back Initial Capital plus a defined capital growth amount on any anniversary date from the second year onwards. If, on any anniversary from year two, both the FTSE 100 Index and the S&P 500 Index are at or above their Initial Index Levels, the Plan will close and return Initial Capital plus 6.5% capital growth for each year that has elapsed.

Where the Plan has not closed early and runs to the full six year term, the required kick-out levels reduce to 75% of their Initial Index Levels on the Investment End Date.

#### Investment Start Date: 15 December 2017 Year Two: 16 December 2019 13% capital growth Have both Indices closed at or above their plus return of Initial Initial Index Levels? Capital NO 19.5% capital growth Year Three: 15 December 2020 Have both Indices closed at or above their plus return of Initial Initial Index Levels? Capital NO, 26% capital growth Year Four: 15 December 2021 Have both Indices closed at or above their plus return of Initial Initial Index Levels? Capital NO Year Five: 15 December 2022 32.5% capital growth Have both Indices closed at or above their plus return of Initial Initial Index Levels? Capital Investment End Date: 15 December 2023 39% capital growth Are both Final Index Levels at or above 75 % plus return of Initial of their Initial Index Levels? Capital NO

If the **Final Index Level** of either Index is below 50% of its Initial Index Level, no growth will be achieved and there will be a capital loss based on the worst performing Index.

# Target Market

This product is designed for UK retail investors who are seeking capital growth linked to the performance of the FTSE 100 and the S&P 500 over a period of up to 6 years and who are willing to risk some or all of their capital in order to achieve a higher level of return than may otherwise be achieved, but who accept the possibility that no return may be achieved from their investment. Investors must have received a personal recommendation from an authorised investment professional.

# Historical FTSE 100 Index Performance

Historical S&P 500 Index Performance

The graphs show the performance of the FTSE 100 Index and the S&P 500 Index over the past 10 years. The Initial Index Levels for the Plan will be set as the Closing Levels of each Index on 15 December 2017.

The Indices can fall as well as rise and past performance is not a reliable indicator of future performance. The Plan is subject to a maximum potential capital growth and therefore the return received could be lower than if investing directly in the shares of the companies which comprise the FTSE 100 Index and the S&P 500 Index. Additionally, dividend income will not be received from those companies.

# **Back testing**
