

Defensive Dual Index Plan (UK and US) Issue 33

Potential Early Maturity after 2, 3, 4 or 5 Years

If, after two, three, four or five years (22 January 2018, 22 January 2019, 22 January 2020 and 22 January 2021) the FTSE 100 Index and the S&P 500 Index have closed at or above their Initial Index Levels, the Plan will mature early and you will receive 100% of your Initial Capital, plus additional capital growth of 14%, 21%, 28% or 35% respectively.

Final Redemption

If the Plan has not matured early, and after six years both the FTSE 100 Index and the S&P 500 Index are at or above 50% of their Initial Index Levels, you will receive 100% of your Initial Capital, plus additional capital growth of 42%.

However, where one or both of the Indices close below 50% of their respective Initial Index Levels on the Investment End Date (24 January 2022), there will be a capital reduction, and no growth will have been achieved.

This capital reduction (if any), will be determined by the worst performing Final Index Level. Capital will be reduced by 1% for every 1% the worst performing Final Index Level is below its Initial Index Level (and part thereof).

Please note that where an adviser charge has been deducted, the returns quoted on this summary refer to the Net Investment Amount after the deduction of charges.

Capital Return

Return of Capital plus any capital growth or less any reduction, will be applied to your Walker Crips Account within 10 business days of the Investment End Date, or relevant anniversary date, subject to timely receipt of maturity proceeds from the Issuer.
