

UK & US Semi-Annual Step Down Kick-out Plan Issue 1

WALKERCRIPS
STRUCTURED INVESTMENTS

The Plan provides the potential to receive capital growth of 7.20% per annum depending on the performance of the FTSE 100 Index and the S&P 500 Index.

The full Investment Term is six and a half years. However, the Plan has the potential to mature early (kick-out) from 23 September 2019 and every six months thereafter.

If, on an anniversary date (listed in the table below), both the FTSE 100 Index and the S&P 500 Index close at or above their required kick-out levels, the Plan will close and investors will receive their initial capital plus capital growth of 3.6% for each six month period that has elapsed (equivalent to 7.20% per annum).

The step down feature reduces the required kick-out level by 5% in the third year, and by a further 5% each year thereafter.

Where the Plan has not matured early and runs for the full six and half year term, there will be a capital loss if the Final Index Level is below 60% of the Initial Index Level.

Investment Start Date: 22 September 2017	Capital growth amount
Year 2: 23 September 2019 Have both Indices closed at or above their Initial Index Levels?	YES 14.40%

Notes to historical performance

Performance based on a rolling basis data range since 1984.

*Percentage outcome reflects the number of occurrences where the performance of the Indices would have triggered the specified return in the given year.

The results of historical back testing should be treated with caution. Back testing is not a reliable indicator of future performance and is simulated on the assumption that the same economic conditions existed and the same product terms had been offered throughout the back testing period.

Target Market

This product is designed for UK retail investors who are seeking capital growth linked to the performance of the FTSE 100 and the S&P 500 over a period of up to 6 and a half years and who are willing to risk some or all of their capital in order to achieve a higher level of return than may otherwise be achieved, but who accept the possibility that no return may be achieved from their investment.
